

Job Description

Looking for a professional land surveyor for remote work (Prudhoe Bay, AK) who supervises and/or leads a field survey crew, operates survey instruments, and collects information in the field and other designated tasks. This is a full-time position with a varied combination of field surveying, office production, survey crew oversight, and related management. This is a part of a larger fieldwork project.

Responsibilities:

- Supervise project field crew(s) and/or serve as field PLS Party Chief is a one- to two-person field survey crew in urban and remote areas of Alaska, including scheduling, management, and coordination of the daily and ongoing operations of the field survey crew
- Work in the field on control, boundary, subdivision, topography & design surveys, aerial mapping control, and aeronautical surveys; may also perform hydrographic surveying
- Accurately run and adjust survey measuring instruments including digital levels, GPS equipment, and total stations with electronic data collecting capabilities
- Take accurate and clear field notes and sketches; perform note reduction.
- Understand and identify basic sources of measurement errors.
- Perform mathematical calculations and check field data in the field.
- Perform data reduction, field note reduction, calculations, data checks, and staking computations using survey programs and AutoCAD.
- Using AutoCAD, perform map drafting and production of survey deliverables.
- Project management duties including quality control, project tracking from start to finish, and client contact.
- Perform quality control checks on each project, including computations, field book formats, and content.
- Perform project research, logistics, and management, review plans, and prepare legal descriptions.
- Adhere to the company's policies, safety plan, and the project safety plan.
- Mentor survey team, including professional & technical oversight and guidance
- Other duties assigned and required

Knowledge, Skills, and Abilities:

- Hydrographic surveying experience a plus
- Right-of-way mapping and parcel plat drafting a plus
- Project management experience a plus
- Ability to work in a physically demanding job outdoors in extreme temperatures

Required Experience:

- High school diploma or GED required
- Professional Land Surveyor registration preferred but not required; If licensed, Alaska registration must be obtained within 18 months of hire; CFedS certification a plus
- Minimum five (5) years surveying and mapping experience, including a minimum of two years working in remote locations; two years working in Alaska is desired
- Five (5) years experience as a Survey Instrument Technician and five (5) years experience as a Party Chief
- Must be proficient in the use of total stations, GPS receivers, data collectors, and GPS reduction software such as Leica Geo Office
- Must be proficient with MS Word and Excel
- Must possess good interpersonal skills and effective written and oral communication skills
- Valid Alaskan Driver's License and acceptable motor vehicle record
- Previous oil field experience and up-to-date training preferred
